

Hecate - Bug #29

100% CPU usage due to listen()

February 06, 2011 01:21 AM - Chalamius

Status:	Resolved	Start date:	February 06, 2011
Priority:	High	Due date:	
Assignee:	Chalamius	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
This should simply be a matter of adding a sleep to listen()			

History

#1 - February 06, 2011 06:35 AM - Chalamius

- Estimated time deleted (1.00 h)

Issue seems to appear when we're using a side-channels (seems to affect file descriptors)

Either way, unless we figure out why select() is returning instantly a possible fix still is a sleep in the listen function.

#2 - February 06, 2011 02:56 PM - AltaDeSaxa

I am unable to reproduce this on my Linux machine. Perhaps your local copy has set the main IRC connection to non-blocking? Are you running this on Windows?

No, I'm running it on Linux. Perhaps it has something to do with where I put it (/tmp)...
I'll experiment and see what could be causing it

#4 - February 06, 2011 06:12 PM - Chalamius

- Status changed from Assigned to Resolved

- % Done changed from 0 to 100

K, note to self: **files** do not like select(), make sure you use fifo!
